Section A - Parts Ordering

GENERAL

This publication, which contains an illustrated parts breakdown, has been prepared as an aid in locating those parts which may be required in the maintenance of the unit. Always insist on genuine Ingersoll-Rand Company parts for your compressor.

Ingersoll-Rand Company can bear no responsibility for injury or damages resulting directly from the use of non-approved repair parts.

Ingersoll-Rand Company service facilities and parts are available worldwide. Consult local yellow pages or visit: www.portablepower.irco.com.

Special order parts may not be included in this manual. Contact the Mocksville Parts Department with the unit serial number for assistance with these special parts.

Description

The illustrated parts breakdown illustrates and lists the various assemblies, subassemblies and detailed parts which make up this particular machine. This covers the standard models and the more popular options that are available.

In referring to the rear, the front or to either side of the unit, always consider the drawbar end of the unit as the front.

Standing at the rear of the unit facing the drawbar (front) will determine the right and left sides.

Fasteners

Both SAE/inch and ISO/metric hardware have been used in the design and assembly of these units. In the disassembly and reassembly of parts, extreme care must be taken to avoid damaging threads by the use of wrong fasteners.

How To Order

Always specify the model and serial number of the unit.

Specify the part number and description.

Section B - COMPRESSOR PARTS

FRAME & LIFTING BAIL ASSEMBLY

This exploded view diagram illustrates the assembly of a mechanical component, likely a valve or actuator. The components are labeled as follows:

- A:** A coiled spring.
- B:** A cylindrical housing or cap.
- C:** A small pin or screw.
- D:** A small cylindrical plug or pin.
- E:** A bracket or support plate.
- F:** A lever arm.
- G:** A small cap or plug.
- H:** A small pin or screw.
- I:** A long, threaded rod or shaft.
- J:** A long, tapered sleeve or bushing.
- K:** A small pin or screw.
- L:** A large, flanged nut or cap.
- M:** A small washer or spacer.
- N:** A small washer or spacer.
- O:** A small washer or spacer.
- P:** A small washer or spacer.
- Q:** A small pin or screw.
- R:** A small cap or plug.
- S:** A gear or sprocket.
- T:** A small washer or spacer.
- U:** A small washer or spacer.
- V:** A small washer or spacer.
- W:** A small washer or spacer.
- X:** A large, flanged nut or cap.
