

# Service Letter

**SL:** 40026  
**Date:** 22 May 2012  
**Product:** All Products  
**Subject:** USB To Serial (RS232) Converter

Doosan Portable Power recommends that you use a USB to Serial (RS232) Converter Cable if your service laptop does not have a serial communication port. Not all USB to Serial Converters appear to work with our system. The devices listed below have been tested by Doosan Portable Power and appeared to function correctly with our software.

The following devices are approved by Doosan Portable Power.

P/N	DESCRIPTION
46551205	USB - Serial Cable (recommended)
46551213	Female to Female RS232 connector

**[Figure 1]** Description of USB to Serial Converter Cable - P/N 46551205.

**Figure 1**

**Figure 2**

Connector P/N 46551213 **[Figure 2]** needs to be used when connecting with converter P/N 46551205 to digital generator controllers (not suitable for synchronization controllers).
