

Technical Service Bulletin

Doosan purchased Bobcat Company from Ingersoll-Rand Company in 2007. Any reference to Ingersoll-Rand Company or use of trademarks, service marks, logos, or other proprietary identifying marks belonging to Ingersoll-Rand Company in this manual is historical or nominative in nature, and is not meant to suggest a current affiliation between Ingersoll-Rand Company and Doosan Company or the products of either.

Number: PC12-040

Date: June 25, 2007 Revised (10-12)

Subject:

Genset brakes, brake lights, breakaway switch and rear reflective markings.

Symptoms:

Brakes, brake lights and breakaway switch may not operate due to incorrect wiring.

MODELS AFFECTED:

G260	G290	G330	G450	G460	G570	G600
------	------	------	------	------	------	------

Remedy:

1. Order 1 six pin connector 35254135, for each machine. Remove the existing 7 pin connector from the towing harness and replace with the 6 pin connector. Connect wires to terminals per instructions in fig 1.
2. The power wire for the Breakway braking system should be located on the positive side of the jumper between the batteries, see Fig 2 for correct location.
3. Order four 36893337 Reflective tape strips, and attach to the top rear corners as shown in fig 3.

THIS IS A CAMPAIGN. Warranty claims will be accepted for the parts and 1.5 hours labor per machine until Jan. 1 2008, Claim must reference Campaign number 07-2.

FIG 1, Remove the 7 way vehicle connector from the trailer harness. Install the new 6 way connector. Connect wires to terminals as follows:

Terminal	Wire Color
GD	White
LT	Yellow
RT	Green
S	Blue
TM	Brown
