Extended Warranty Plans

After purchasing the best compressor on the market, protect your investment with Doosan's no-cost Optional Extended Airend or Engine Warranty. Simply use Doosan Genuine Filters and Fluids.

Doosan's Optional Extended Airend Warranty

Coverage is applicable to the earlier of 5 years from compressor shipment or the accumulation of 10,000 hours of service by the user. The Optional Extended Airend Warranty is limited to defects in major components, and it is automatically available to the user when the following three conditions are met:

1. The original airend is returned assembled and unopened.
2. Use of genuine Doosan parts, fluids and filters.
3. Maintenance is performed at the prescribed intervals listed in the compressor's maintenance manual.

It is the obligation of the user to provide verification that these conditions have been satisfied including but not limited to supplying proof of purchase of Doosan genuine parts and equipment inspection and maintenance records. Airend must be returned to the factory for failure analysis before warranty can be approved.

The Optional Extended Airend Warranty is Transferable

Doosan's Optional Extended Engine Warranty (Platinum Drivetrain)

Platinum Drive Train Warranty (Optional) – Platinum drive train (engine and airend combination) will be free of defects in material and workmanship for a period of sixty (60) months from shipment to, or the accumulation of 10,000 hours of service by the initial user or sixty-six (66) months from date of delivery from the factory to the distributor, whichever occurs first. The starter, alternator, fuel injection system and all electrical components are excluded from the extended warranty.

The airend seal and drive coupling are included in the warranty (airend drive belts are not included). The optional warranty is automatically available when meeting the following conditions:

1. The original engine or airend* is returned assembled and unopened
2. Continued use of genuine Doosan Infracore Portable Power parts, fluids, oil and filters
3. Maintenance is performed at prescribed intervals

Platinum Drive Train Warranty (Optional)

is **only** available on Compressors fitted with **Kubota – Yanmar – John Deere and Cummins QSB4.5 and QSB6.7**

It is the obligation of the user to provide verification that these conditions have been satisfied including but not limited to supplying proof of purchase of Doosan genuine parts and equipment inspection and maintenance records. Airend must be returned to the factory for failure analysis before warranty can be approved.

The Optional Extended Engine Warranty is Transferable
